The board game board is a winding path with various colored spaces (yellow, orange, green, blue, purple, pink) and illustrations. Each space contains text in Japanese, often including monetary values (e.g., \$1000000, \$5000000, \$1000000000). The path starts at a 'START' area and ends at a 'GOAL' area. The board is surrounded by a decorative border of small icons. A central spinner is used to determine movement. The board is divided into several sections, each representing different aspects of life and the environment, such as 'Work', 'Education', 'Health', and 'Environment'. The path winds through these sections, with various challenges and rewards along the way. The board is designed to be played on a large sheet of paper or a board, with the path leading from the start to the goal through various life events and challenges.
