## ■About “Tomica”

“Tomica” was released in 1970 by TOMY Company, Ltd. as Japan’s first palm-sized domestic die-cast miniature car series, and it celebrated its 50th anniversary in 2020. At the time when foreign-made miniature cars were at the height of popularity, it was born out of a burning desire to see Japanese children playing with more familiar Japanese miniature cars. It is now loved by parents and children across three generations. Up to now, we have sold more than 1,110 different types of cars, a total of more than 710 million cars (As at April 2022).

In recent years, in addition to our long-standing products, we have expanded our lineup such as with our “Dream TOMICA” Series that collaborates with popular characters and contents and our “TOMICA Premium” Series of highly detailed collection models. In addition, in 2016, we launched full-scale licensing of the “Tomica” brand for adults. We have been expanding licensing to apparel, stationeries, daily necessities, etc. with the aim of making Tomica a brand that will be of interest to a wide range of people regardless of age or gender.
